### Electricity serves you... wherever you go!

When you relax at home, electricity is all around you—bringing you light, entertainment, comfort. If you go out for recreation, you may think you're leaving your electric service behind. But electricity plays an important part in the operation of theaters, restaurants, parks and sports arenas, for example. The lights, sounds, pictures and other services are important parts of your electric service—helping to make your living better, every day.

1954 is LIGHT'S DIAMOND JUBILEE YEAR the 75th birthday of electric light.

### Dear Editor...

School For Hoodlums

Editor Torrance Press

Let me be the first to congratulate your paper for explaining to "as you say" 100,000 readers how to enter another's automobile. I'm sure all the young hoodlums in this area who didn't already know this trick will thank you and Capt. Ernie Ashton for your very helpful suggestion.

Most editors would rather help curb vandalism than encourage it, but as is so aptly said "it takes all kinds to make a world."

Why don't you wise-up and help us instead of helping every young hoodlum who may glance at your so-called paper.

(signed) PENNINGTON Wilmington, Calif.

(Editor's note: Thank you. We appreciate all opinions, especially on controversial matters. We don't have to teach "the young hoodlums" a thing — they learn pretty rapidly without us. But we have to warn unsuspecting residents against a very real danger. Why leave people with a false sense of security? We'd rather arouse people through a picture than have them learn through sad experience!)
